GoodReader

Canning is a method of preserving food in which the food contents are processed and sealed in an airtight container. Canning provides a shelf life typically ranging from one to five years, although under specific circumstances it can be much longer. A freeze-dried canned product, such as canned dried lentils, could last as long as 30 years in an edible state.

Canning - Wikipedia

practice good sanitation. Make sure to follow the handling and preparation instructions on the label to ensure top quality and safety. Additional information on safe food handling practices in the home can be found at Check Your Steps: Food Safe Families and The Big Thaw. ... Food Product Dating .
