introduced the genealogical tree-diagrams into comparative linguistics; in this model, genetically related languages are represented as nodes on a genealogical tree, in whose root is the common proto-language of that family. Schleicher also made the first attempts to reconstruct the Indo-European proto-language by applying the comparative method.

language. Without morphology understanding is not possible. In comparative linguistics therefore morphology is king. Different morphology indicates different languages. The same morphology indicates that the languages are the same. Rask and Bopp founded comparative Indo-European linguistics on morphology.
