

computer basics in easy pdf

components within your computer. It determines how fast your computer will run and is measured by its MHz speed. Thus a 600 MHz Pentium is much faster than say a 400 MHz Pentium CPU. It is the CPU that performs all the calculations within the computer.

computer basics

Hardware includes the parts of the computer system that you actually can touch (like the keyboard, mouse, monitor, or CPU). What's a CPU? It's explained below. Software refers to the programs that you use on your computer (like a word-processing program) or the programs that make your computer work (you physically cannot touch these). Programs are also called applications.
