Computer engineering : a DEC view of hardware systems

1 Introduction Read the whole document before you begin, or you may miss points on some requirements (for example, the bug log). In this machine problem, you will work in teams to develop the core of an operating system. We will provide you with code that boots you into protected mode, sets up the GDT, LDT, and initial TSS, and maps a read-only file system image into physical memory for you.
