Philosophy of psychology refers to the many issues at the theoretical foundations of modern psychology

Philosophy of psychology - Wikipedia

Evolutionary psychology is a theoretical approach in the social and natural sciences that examines psychological structure from a modern evolutionary perspective. It seeks to identify which human psychological traits are evolved adaptations – that is, the functional products of natural selection or sexual selection in human evolution. Adaptationist thinking about physiological mechanisms ...

2.2. Cultural learning: The first draft gets edited during development within a particular culture. A dictum of cultural psychology is that “Culture and psyche make each other up” (Shweder, 1990, p. 24). If there were no first draft of the psyche, then groups would be free to invent utopian moralities (e.g., “from each according to his ability, to each according to his need”), and they ...
