One unfortunate result of taking pictures with flash in front of glass is glare. I can't tell you how to avoid the glare to begin with, but I may be able to help you get rid of it, once it's already there. This tutorial was done in Photoshop CS5, but can be adapted in any version. When the glare ...

One of the things that can be frustrating to creative professionals is receiving files that have been put together using the wrong piece of design software. It could be anything from using Adobe Illustrator instead of InDesign for layout or a logo that has been put together using Photoshop. While it's expected that pros should know this information, someone who's cracking open the software for ...
