In linguistics, grammar (from Greek: *gramma*, *gramma*) is the set of structural rules governing the composition of clauses, phrases, and words in any given natural language. The term refers also to the study of such rules, and this field includes phonology, morphology, and syntax, often complemented by phonetics, semantics, and pragmatics. Speakers of a language have a set of internalized ...

At the height of the Communicative Approach to language learning in the 1980s and early 1990s it became fashionable in some quarters to deride so-called "old-fashioned" methods and, in particular, something broadly labelled "Grammar Translation". There were numerous reasons for this but principally it was felt that translation itself was an academic exercise rather than one which would ...
