## **Racism - Wikipedia**

Race and health refers to the relationship between individual health and one's race and ethnicity. Differences in health status, health outcomes, life expectancy, and many other indicators of health in different racial and ethnic groups are well documented, and referred to as racial health disparities. Some individuals in certain racial groups receive less care, have less access to resources ...

On Views of Race and Inequality, Blacks and Whites Are Worlds Apart 1. Demographic trends and economic well-being. In many ways, America remains two societies â€œ one black and one white â€œ as measured by key demographic indicators of social and economic well-being.

## **Demographic trends and economic well-being**

The term health disparities refers to population-specific differences in the presence of disease, health outcomes, quality of health care and access to health care services that exist across racial and ethnic groups.

## **Health Disparities Overview**

America benefits when everyone has the opportunity to live a long, healthy, and productive life, yet health disparities persist. A health disparity is a difference in health outcomes across subgroups of the population. Health disparities are often linked to social, economic, or environmental disadvantages (e.g., less access to good jobs, unsafe neighborhoods, lack of affordable transportation ...

1.. Background Environmental conditions have been extensively explored as contributing factors in promoting health disparities (Lee, 2002, Sexton, 2000). It is widely accepted that racial/ethnic minority neighborhoods are disproportionately affected by increased rates of morbidity, mortality and adverse health outcomes (Cubbin et al., 2001, Deaton and Lubotsky, 2003).
