Recent Advances in Computational Modeling of Thrombosis Sumith Yesudasan and Rodney D. Averett\*  
School of Chemical, Materials and Biomedical Engineering, University of Georgia ... Computational studies related to the thrombus formation (b) Publications re-lated to the study of blood clot formation.

### **Recent Advances in Computational Modeling of Thrombosis**

Recent Advances in Computational Epidemiology. The threat of pandemic outbreaks across multiple continents and the associated economic and social costs is a key societal concern, and continues to demand significant resources for modeling, detection, and control efforts (case in point: the recent influenza outbreak caused by H7N9 in China).
