review of the scientific pdf

Peer review is the evaluation of work by one or more people with similar competences as the producers of the work (). It functions as a form of self-regulation by qualified members of a profession within the relevant field. Peer review methods are used to maintain quality standards, improve performance, and provide credibility.

What Is Meditation? Meditation is a mind and body practice that has a long history of use for increasing calmness and physical relaxation, improving psychological balance, coping with illness, and enhancing overall health and well-being. Mind and body practices focus on the interactions among the brain, mind, body, and behavior. A new report based on data from the 2017 National Health ...

Forty years ago today, on October 8, 1978, the Shroud of Turin Research Project (STURP) team began their historic, first ever in-depth scientific examination of the Shroud of Turin in a makeshift "laboratory" in the Royal Palace of Turin. The examination took place over a period of five days and nights, from October 8 through 13, 1978.

Why a Scientific Format? The scientific format may seem confusing for the beginning science writer due to its rigid structure which is so different from writing in the humanities. One reason for using this format is that it is a means of efficiently communicating scientific findings to the broad community of scientists in a uniform manner.
