That's much the question. I have PHP 5.2.9 on Apache and I cannot upgrade PHP. Is there a way for me to enable SOAP in PHP 5.2.9? The PHP manual did not help at all when it said, "To enable SOAP support, configure PHP with --enable-soap ."

How do I enable --enable-soap in php on linux? - Stack

Soap is an American sitcom that originally ran on ABC from September 13, 1977 until April 20, 1981. The show was created as a night-time parody of daytime soap operas, presented as a weekly half-hour prime time comedy. Similar to a soap opera, the show's story was presented in a serial format and included melodramatic plot elements such as alien abduction, demonic possession, murder, and ...

In computer programming, an application programming interface (API) is a set of subroutine definitions, communication protocols, and tools for building software. In general terms, it is a set of clearly defined methods of communication among various components. A good API makes it easier to develop a computer program by providing all the building blocks, which are then put together by the ...
