The Power of Pawns.pdf | Chess | Game Theory

Chess is a two-player strategy board game played on a chessboard, a checkered gameboard with 64 squares arranged in an 8×8 grid. The game is played by millions of people worldwide. Chess is believed to be derived from the Indian game chaturanga some time before the 7th century. Chaturanga is also the likely ancestor of the Eastern strategy games xiangqi, janggi, and shogi.

The history of chess goes back almost 1500 years. The game originated in northern India in the 6th century AD and spread to Persia. When the Arabs conquered Persia, chess was taken up by the Muslim world and subsequently, through the Moorish conquest of Spain, spread to Southern Europe. In Europe, the moves of the pieces changed in the 15th century. The modern game starts with these changes.

During the 1960 presidential elections, Brzezinski was an advisor to the John F. Kennedy campaign, urging a non-antagonistic policy toward Eastern Europe. In 1964, Brzezinski supported Lyndon Johnson's presidential campaign and the Great Society and civil rights policies, while on the other hand he saw Soviet leadership as

having been purged of any creativity following the ousting of Khrushchev.
