Until the summer that changed everything. This is now! After an accidental drowning turned the lake house into a site of tragedy and grief, it was closed up. For good. Torn apart, none of the Hempstead women speak of what happened that summer, and relationships between them are uneasy at best to hurtful at worst.

In the latter part of the century, most of these cities could experience more than 60 days per year with temperatures topping 90°F, and some cities as many as 80 days. With lower emissions, roughly half this increase is expected. These cities currently endure, at most, two days of 100°F weather in the average summer.
