Growing Unequal? : Income Distribution and Poverty - OECD

Growing Unequal? brings together a range of analyses on the distribution of economic resources in OECD countries. The evidence on income distribution and poverty covers, for the first time, all 30 OECD countries in the mid-2000s, while information on trends extending back to the mid-1980s is ...

Growing Unequal? Income Distribution and Poverty in OECD

The distribution of wealth is a comparison of the wealth of various members or groups in a society. It shows one aspect of economic inequality or economic heterogeneity.. The distribution of wealth differs from the income distribution in that it looks at the economic distribution of ownership of the assets in a society, rather than the current income of members of that society.

Distribution of wealth - Wikipedia

Economic inequality covers a wide variety of topics. It can refer to either income distribution (measuring the amount of money people are paid) or the distribution of wealth, (the amount of wealth people own).. Besides measurements between countries or states, there are important types of economic inequality between groups of people.
